UNIVERSITY, PHILADRIPHIA.—It gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Manual." Numerous cases of Diseases of the Genital Organs, one of them of long standing, have come under my notice, in which his skill has been manifest in restoring to perect health, in some instances where the patient has been considered beyond medical aid. In the treatment of Seminal Weakness, or disarrangement of the functions, produced y self abuse or excess of venery. I do not know his superior in the profession. "This is, without exception, the most comprehensive and
intelligible work published on the class of diseases which

of the reason of its readers. It is free from all objectiona
its matter, and no parent, however fastidious, e

The hands are voted many years to the treatment of the various complaints reated of, and with too little breath to puff, and too little presumption to impose, he has offered to the world at he merely nominal price of 25 cents, the fruits of some wenty years most successful practice "—Herald.

A Presbyterian clergyman in Ohio, in writing of "Hun-er's Medical Mannal, says:—"Thousands upon thousands of our youth, by evil example and influence of the passions, have been led into the habit of self-pollution without realiz-ng the sin and fearful consequences upon themselves and posterity. The constitutions of thousands who are raising amilies have been enfeebled, if not broken down, and they do not know the cause or the cure. Anything that can be done so to enlighten and influence the public mind as to check, and ultimately to remove this wide spread source of human wretshelness, would confer the greatest blessing ext to the religion of Jesus Christ, on the present and coming generations. Intemperance (or the use of intoxicating drmks,) though it has slain thousands upon thousands, is not a greater scourge to the human race. Accept my thanks on behalf of the afflicted, and, your co-worker in the good work you are so actively engaged in."

DR. MORSE'S

I NVIGORATING CORDIAL, a Phenomenon in Modleine.

Henlih Restored and Life Lengthemed, by

DR. MORSE'S INVIGORATING ELIXIR OR CORBIAL.

For centuries, Modical science has been ransacating the vegetable and mineral kingdoms, in search of something that should restore the lost or decaying energies of the nervoys and enneally systems, without the drawback of subsequent prostration, which all stamplants, trades, and unresting has been found. It is a vegetable production, brought from the startid cheerit of a regardle production, brought from the startid cheerit of Araba the Stony, by the celebrated Professor X. Morse, well known as a distinguished member of the leading scientific societies of the Old World, and equally distinguished man physician, a chemist, and atraveler. The jutics of this hard, concentrated and combined with other vegetable medicinal extracts, are now producing results heretofore unheard of, in this or any other country. At first the properties attributed to Prof. MORSE'S INVIGORATING ELIXIR OR CORDIAL were deemed fibulous. The public often deceived could not believe the simply and subine truths announced by the discoverer. But facts, undeniable facts altested by witnesses of the highest class and character, the now triumphing over all doubts. INCREBILITY IS OWER. The Enture remedies, in all uses, the deployable ovills attempt from a misuse or abuse in the various organs which make up the wonderfulms at scalled main. It restores to the larger every delicate rulling connected with that myster of the respectation of human life. To persons of feeble muscular frame, or deficient in vital power, it is recommonded as the only means or communicating that energy which is necessary to the proper enjoyment of all the natural appetities, as well as the higher mental attributes. Its beneficial effects are not confined to either sever to any age. The feeble girl, the alling wife, the histony enovated youth, the over worn man of business, the victim of nervous depression, the individual suffering from general debility, or from the weakness of a single organ, with all find immediate and permanent relief from the use of this incomparable renovator. To those who have a predisposition to paralysis it will prove a complete and unfailing safeguard against that terrible mainady. There are many, perhaps, who have so triffed with their constitutions, that they think themselves beyond the reach of medicine. Let not even these despair. The Efficient denis with disease as it exists, without reference to causes, and will not only remove the disorder itself, but

Rebuild the Broken Constitution.

The derangements of the system, leading to nervous discases, and the forms of nervous disease itself, are so numerous that it would require a column to enumerate the muladies for which this preparation is a specific. A few however, may be entimorated, via: neuragia, the determine, heatinehe, incipient paralysis, bystems, natipitation of the heart, spinal affections, muscular debility, framors, fininience, a pricking sensation in the flesh, numbers, torpidity of the liver, mental depression, weakness of the will, indisposition to move, faintness after exercise, broken sleep and terrifying dreams, inability to remain in one place or position, weakness of the procreative organs, sexual incompletoncy, metancholy, in momental, flour albus, sinking at the stomach, frame irregularities, a chronic tendency to miscarriage, emiscistion, and all complaints growing out of a fews indulgence of the positions, and all barrentess that does not proceed from organic causes beyond the reach of medicine. Whatever the organs to be acted upon are free from mal-

Whomever the organs to be acted sponure free from mulformation or strictural diseases it is avered that

Cure of Nervous Discases.

No language can convey an adequate idea of the immediate and almost intraculour change which it occasions in the discased, debiliated and shattered nervous system, whether broken down by excess, weak by nature, or impaired by sickness, the unstrueg and relaxed organizations as once braced re-virified and built up. The mental and physical symioms of mervous discase vanish together under its influence. Nor is the effect temporary, on the contrary, the relied is permanent, for the cordial properties of the medicine reach the constitution itself, and restore it to its normal condition.—Well may the preparation be called the Medicinal Wonder.

of the aincteenth century. It is, as the first scientific man in the world would have admitted, that miracle of medicine heretofore apposed to have no existance.

A Stimulant that Entails No Re-Action A Stimulant that Entails No Re-Action.

Its force is never expanded, as is the case with optium, alcoholic preparations, and all either excitants. The effect of those is brief, and it may well be said of him who takes thom.

"The last state of that man is worse than the first." But the Elixie is an exhiberant without a single drawback—saide in its operation, perpetual in its happy influence upon the nerves, the mind, and the entire organization; it will also remove depressions, excitement, a trodecay to blosh, deeplessness, dislike of society, inexpacity for study or business.

A Great Medicine for Females, A Great Medicine for Females.

The unparalleled effects of this great restorative, ir al complaints incident to females, mark a new era in the annals of medicine. Thousands of stimulants have been invented—thousands of invigorable concocted—all purporting to be specified in the various discases and dernagements to which the delicate formation of woman render her liable.—The result has heretofore been uniform. These neatrum have indeed imparted a momentary vivacily to the nervous system, a transient and delusive vigor to the muscles, but this fash of relief has been succeeded by a depression and prostration greater than before, and the end has too offen been utterly to parally as the recuperative power of the nerves and the vital organization, and finally to destroy the unamply patient. But in

The herb which forms its main ingredient, has been admitted by all the great medical and pharmacentical institutions of knope to be in this respect sulgeneris. These are some of the sad and meinneholy effects produced by early habits of youth, viz. weakness of the back and limbs, pains in the head, dimness of sight, loss of muscular power, pulpitation of the heart, dispepsia, nervous irriability, derangement of the digestive functions, general debitity, symptoms of consumption, &c.
